Device details:

Save up to $\frac{2}{3}$ measuring uncertainty with well prepared samples

- Very robust device
- Thin, evenly and parallel cut samples with a smooth surface
- Quick and efficient cut
- LED to illuminate the cutting process
- Precise and repeatable measuring results

Area of application:

- Sample preparation according to **IEC 60811**
- Cutting device for cable samples with an outer diameter up to 65 mm (2.56 Inch)
- Optimal cable preparation device for measurements with offline cable measurement devices
- Use of the Cable O-Ring Cutter is essential for your Quality Management
- Precise and repeatable measuring results possible with the cut samples
- Cut samples complement the cable measuring devices from the VisioCablePro[®] series
- Compact and light device to easily use in laboratories and production halls
