

Press release

Thomas Leitner becomes the new LUMIMAX® Sales Manager for Southwest Germany

LUMIMAX® - Thomas Leitner - Sales office in Backnang

Suhl, May 04, 2020. With the opening of a new sales office in Backnang near Stuttgart we are enhancing our customer services in the south-western region of Germany as from May 2020. The new iiM branch office will be managed by Mr. Thomas Leitner and includes an image processing laboratory. In addition Thomas Leitner will complement and support the sales activities of our sales manager Mr. Karsten Moses, located in Weißenberg, near Lake Constance.

With Thomas Leitner the LUMIMAX® team was offered a unique opportunity to intensify its sales activities in southern Germany, especially in the Stuttgart area, further including the Baden and Palatinate as well as Saarland region. Thomas Leitner contributes a proud 30 years of expertise in the

field of industrial image processing to our company. After his successful graduation in „Optical Technologies“ he enhanced his know-how in diverse companies. In the past years he has held diverse positions including pre-sales teamleader and application engineering at renowned companies of the machine vision industry.

With the branch office in Backnang, Thomas Leitner will handle the personal on-site support of our LUMIMAX® customers and therefore expand and enhance our sales strategies. The integrated image processing laboratory will offer various opportunities to realize feasibility studies most customer-oriented and fast. The opening of a new sales office with Mr. Leitner will offer highly competent and focused support to our customers in the southwest of Germany.

We wish Mr. Leitner best success in his new endeavours and look forward to a strong collaboration. Welcome to our team.

About iiM AG

iiM AG measurement + engineering is the developer, manufacturer and distributor of high-quality, high-performance products for Machine Vision. In Suhl, we develop and manufacture high-performance and highly functional LED lights under the LUMIMAX® brand for Machine Vision applications in a very wide range of industrial areas, such as for the automobile, semiconductor, pharma, food, drinks and tobacco industries. A second division develops and markets special measuring technology and peripherals for the cable and wire industry to record geometric features, particularly on insulating covers and cable sheathing, in accordance with standards. A team of over 50 engineers, technicians and skilled workers assists our customers as a partner when realizing their challenging tasks. In order to guarantee a high standard of our processes as well as continuous improvement, we annually undergo an inspection of our Quality Management System according to ISO 9001:2015 and we are certified by DEKRA Certification GmbH.
